BULK DEF PROGRAM

Did you know? FGI Offers a Bulk DEF Program!

Partnered with the Blue Network, they provide a total solution for DEF liquid, delivery, and equipment. Blue Network has partners across Canada to ensure seamless service.

Call your local FGI today to discuss setting up a DEF Bulk Program!

- Automated, no-hassle delivery.
- Different delivery frequencies per region, and per customer's consumption.
- With a range of storage tanks, hose reels and connectors, Blue Network provides members with the high-quality equipment needed to safely dispense DEF, including Reservoirs, Pumps, and Accessories.

There are two types of services available, depending on:

1. If you own or want to own your equipment.
2. If you want to purchase equipment up front through financing.

NEW

INTRODUCING FORTIS AIR TANKS

AIR TANKS

- Air tanks meet SAE J10 and FMVSS DOT 121 for use in Heavy Duty Brake Systems
- Every tank is pressure tested for leak resistance, structural integrity and safety
- Ports are resistance welded for strength and leak protection
- Maximum working pressure: 150 psi
- Continuous weld seams ensure a sound and secure tank body
- Holes in the mounting brackets are drilled at 7/16" diameter
- Corrosion-resistant paint to both the inside and outside surfaces of the steel tanks, providing long lasting rust protection

INTRODUCING FORTIS ULTRA BATTERIES

COMMERCIAL STARTING BATTERY

Fortis Ultra Batteries combine the latest electrochemical advancements in battery technology, producing significant improvement in performance, reliability and battery life.

Fortis Ultra Batteries use a vehicle's natural movement to continuously mix the electrolyte inside the battery to eliminate acid stratification and extending battery life. Acid stratification, also known as acid build-up, happens to every lead acid battery when heavier acid settles and builds up at the bottom of the cells.

Forget about premature performance loss and battery failures.

Fortis Ultra Batteries deliver greater charge acceptance, extreme temperature operation, all these while sustaining its original performance protecting your investment.

FEATURES AND BENEFITS:

- Higher sustained performance
- Longer battery life in extreme temperatures
- High cold cranking and reserve capacity

HNBXR OD

- Easy to install
- No tools required

Unitized design

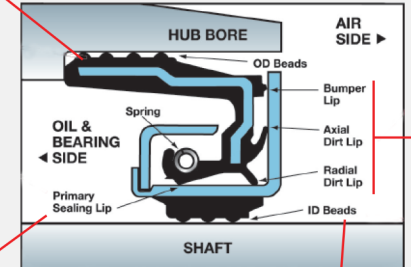

- 3 metal unitizer rings for damage free installation

Primary sealing lip

- Wavesal lip pumps oil back to the bearings for cooler operation and extended life
- Low friction design for increased and improved fuel economy
- Provides extreme heat resistance and broad compatibility with synthetic lubricants

Bumper, axial and radial dirt tips

- 3 dirt barriers keep out contaminants
- Bumper lip acts as a primary dirt excluder
- Added bearing protection

EPDM ID

- Easy to install
- Perfect seal even on worn spindles
- Optimized sealing life under virtually all driving conditions
