FOLDING HANDLE CHAIN BINDER

Strength Where it Matters. Safety Where it Counts.

Traditional chain binders leave a fixed handle protruding from the load, creating a potential strike or snag for operators moving around the trailer. The Kinedyne Folding Handle Chain Binder reduces this risk with a handle that folds neatly out of the way once tension is applied. This creates a safer, low profile securement point.

KEY BENEFITS:

- Folding Handle Design
- Safer Movement Around Loads
- Secure Chain Tension
- Controlled Operation
- Tamper-Resistant Locking
- Durable Construction
- Regulatory Compliance

KAPTIVE BEAM MAXIMIZING TRAILER CAPACITY

The Kaptive Beam Double-decking system boosts trailer capacity, improves fuel expense and reduces cargo damage, maximizing profitability. The Kaptive Beam is the most effective decking system on the road.

WHY KAPTIVE BEAM?

-  **BOOST TRAILER CAPACITY**
-  **OPTIMIZE FLEET EFFICIENCY**
-  **QUICK UNLOADING & EASY STORAGE**
-  **PREVENT CARGO DAMAGE**

FUEL/WATER SEPARATOR ELEMENTS

ADVANCED MULTI-STAGE WATER REMOVAL

Easily see when your filter needs replaced

FROM

136⁹⁵

When fuel reaches flange line indicated by **CHANGE** arrows, filter must be replaced

1

MULTI-LAYER SYNTHETIC COALESCING MEDIA

Contaminants are removed and water begins to coalesce as the fuel moves through the multi-layer media

2

SECOND STAGE COALESCING MEDIA

Additional coalescing occurs, causing water drops to enlarge

3

WATER BARRIER STRIPPING SCREEN

Final stripping of the water occurs, preventing the water from getting to the clean side of the filter and into your fuel system

DM ADVANTAGE® 2 SPEED REMANUFACTURED FAN DRIVES

DM Advantage On/Off Fan Drives are backed by Horton's superior warranty program and offer high-performance, efficient engine cooling for heavy- and medium-duty trucks, buses and off-highway equipment.

Hundreds of thousands of OEM-installed DM Advantage Fan Drives have performed flawlessly in the highest-heat under hood applications. Featuring superior components, both DM Advantage models contain a premium sheave bearing, a long-wearing air cartridge and friction liner for added reliability and reduced maintenance.

BENEFITS:

- Longer operating life
- Fuel savings
- Reduced noise
- Better engine performance
- Engine coolant temperatures kept at optimum operating efficiency
- Increased reliability in high-horsepower applications
- Easy to install and maintain

DID YOU KNOW MOST TURBO FAILURES ARE OFTEN MISDIAGNOSED?

MAINTAINING TURBO CHARGER RELIABILITY STARTS WITH PROPER DIAGNOSIS

Turbo charger failures are often the result of another systems failure. This means most premature turbo failures are not caused by the turbo itself, they are the result of unresolved engine system issues.

Replacing the Turbo without addressing the root cause leads to rapid repeat failure.

THE ROOT CAUSES OF PREMATURE TURBO FAILURE:

1
**EGR SYSTEM
MALFUNCTIONS**

2
**DPF
RESTRICTION**

3
**FAULTY OR
LEAKING FUEL
INJECTORS**

4
**FOREIGN
OBJECT
DAMAGE (FOD)**

BENEFITS OF PROPER DIAGNOSIS:

1
**PROTECTS YOUR
INVESTMENT**

2
**PREVENTS REPEAT
FAILURES**

3
**DIAGNOSES THE SYSTEM,
NOT JUST THE TURBO**

BUY A 22-TON TRUCK JACK GET A FREE PAIR OF SAFETY STANDS
